There is two ways to order:

1. Online ordering: Simply add the items in the shopping cart, select your quantities and specs. Then proceed by filling in your shipping and order info, shipping option and that is it. Once this is completed click the upload files button on the left hand side to upload files related to your order, please make sure to zip multiple files in one file. Once you are logged in the system will automatically assign this information to your order. You can also use this to send us details of how you would like us to design your job or simply send us an email if this is easier.

2. Over the phone or open amount payment: Over the phone payment can be done for those clients who feel more comfortable with human process or for items that cannot be purchased online. We do not readily have all the needed UPS shipping information to enter into the system until the order is placed. To order all you have to do is tell us what you would like, we price the item, give us your credit card information or make the payment on the credit card form. Once this is completed send us an email with your files and description of the design job if ordered.
